¹ Reported using the most recent viral load recorded for each client as of December 31, 2017 among those served by the Part B program in calendar year 2017 (including those clients on ARVs and those clients not on ARVs)." to "Reported using the most recent viral load recorded for each clients of December 31, 2017 among those served by the Part B program/ADAP in calendar year 2017 (including those clients on ARVs and those clients not on ARVs).

Note: 51 Part B programs reported data. American Samoa, Federated States of Micronesia, Guam, Marshall Islands, Northern Mariana Islands, Oklahoma, Pennsylvania, and Republic of Palau did not respond. Data reflect clients enrolled in Part B programs over the past 12 months or the most recent 12 months for which data are available. A dash (-) indicates the Part B program did not report data. A zero (0%) indicates the Part B program responded zero (0%) to the question.

Note: Many ADAPs were unable to report Viral Load separately for: clients served by a full-pay prescription program only; clients served by an ADAP-funded insurance program only; and clients served by a fully-pay prescription program and ADAP-funded insurance program. As such, the percentage of clients that fall into each Viral Load category are reported under "All Clients Served" for each state for which this is the case.

² Individuals who had an insurance (i.e., Medicare Part D, Medicaid, private insurance) payment (premium, co-payment/co-insurance, and/or deductible) paid on their behalf using ADAP funds, either fully or in part.

³ This includes clients who enrolled in an insurance plan mid-year and those who were enrolled in an insurance plan that did not cover one or more medically necessary medications such that the ADAP's full-pay prescription program did instead.

Note: 53 ADAPs reported data. American Samoa, Federated States of Micronesia, Guam, Marshall Islands, Northern Mariana Islands, and Republic of Palau did not respond. A dash (-) indicates the ADAP did not report data. Data reflect clients enrolled in ADAPs over the past 12 months or the most recent 12 months for which data are available. A dash (-) indicates the ADAP did not report data. A zero (0%) indicates the ADAP responded zero (0%) to the question. In some cases, an ADAP was able to report data though was unable to distinguish between clients served by the full-pay medications program only, the ADAP-funded insurance program only, and the full-pay medications and ADAP-funded insurance programs.
